I bought this pack months ago and I didnt have any problem at all, i got eveyrhing that was listed in the pack, the booster, the heroes, the costume, etc

Is really good, and a tip, buy it when is in sale. It wont load up doesn't matter how many times I start Wakfu it doesn't ask for the DLC code I'm out \$10 its non-refundable and the main website for wakfu will take forever from the other posts I've read so by the time this issue is resolved I'll have moved onto something else. So as of now no more Steam Purchases. I'll buy Fall out 4 from Amazon instead.. Excarnus pack is pretty worth it for the price its cheap and you get a decent amount of goodies. unless you screwed up like Trancy and put it on the wrong account you're good to go :). I bought this pack before the heroes system was integrated thus got much less for the same amount, i wish i would have had compensation, but don't expect much from steam or ankama, plus the pack isn't worth it in my opinion, items look awful and costume does aswell. The best for the price, Nice items coustume kills it. :D

go for this.. Gives some really cool gear and some nice ingame special money. The costumes pretty hot too. ^w^

its a great pack if you are new and quite enjoyable game !. It will not give me the items listed and the booster, please help me i don't know what to do. Itens que ajuda a upar
Itens pra quem quer ter aparencia no saco de viagem, pena que \u00e9 vinculado os itens
